

MINNEHAHA COUNTY JAIL PROJECT FACT SHEET

WHAT: Replacement of the Community Corrections Center (CCC) and jail intake area.

HOW: Replace 225 CCC beds with 320 secure beds. Construct the beds and the intake area directly adjacent to the current jail.

WHY: A 2012 Study (http://minnehahacounty.org/dept/so/divisions/jail/MinnehahaSD - FINAL_REPORT-ver4-WSLIDES.pdf) done by the National Institute of Corrections recommends closing the CCC due to the conditions of the facility.

An Inmate Population Study (<http://minnehahacounty.org/cjac/reports/2014InmatePopStudy.pdf>) predicts the need for future secure inmate housing.

The safety of the public, the safety of the staff, and the safety of the people housed.

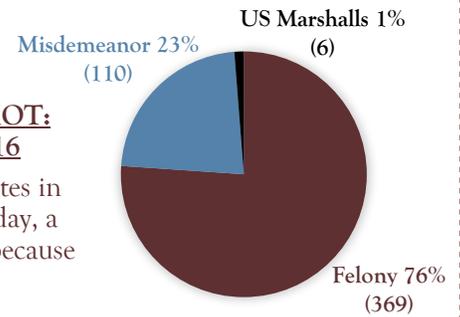

COST: The projected cost of construction is \$45 million and the estimated tax payer cost is \$10 per year for a \$100,000 property.

From 2008 to 2014 Minnehaha County has experienced a 106% **felony criminal caseload increase**.
 (Data from the SD Unified Judicial System (UJS) Criminal Caseload Statistics for Minnehaha County)

**JAIL SNAP SHOT:
July 27th, 2016**

Of the 485 inmates in custody on this day, a majority were in because of a felony.

Minnehaha County is **committed** to implementing best practice strategies, justice system innovations, and alternative programming. Current endeavors include:

- | | | | | | |
