PERMIT CONDITIONS

The lowest floor (including basement floor) of any new or substantially improved building will be elevated to or above the base (100-year) flood elevation.

Certification (Post Elevation Certificate) will be provided by a registered engineer, architect, or land surveyor of the "As Built" lowest floor elevation.

All new or replacement utilities will be designed and located to eliminate flood damage, contamination, and hazards.

All equipment, material or debris will be anchored or removed prior to any flooding.

Fully inclosed areas below the lowest floor will be provided with openings designed to equalize hydrostatic flood faces or be flood proofed.

Anchoring to resist flotation, collapse, and lateral movement will be used.

The proposed fill will be protected from erosion and maintenance will be provided.

Other: _____
